Where off-road dreams come true!

The desire to purchase a 4x4 expedition vehicle prompts many questions: Which vehicle should it be? Which engine configuration do I require? Which body or extension solution suits my needs? And which equipment do I not want to miss out on? This is the moment when we always ask two questions. 1. Where do you want to travel? 2. Are you travelling alone, as a couple or with children?

Needless to say, the vehicle selection and configuration of your future 4x4 expedition vehicle is heavily influenced by your dream destinations and the size of your travel party.

Due to our years of industry experience and our passion for 4x4 travel, we are experts in all things off-road. Each of our vehicles is handmade in Germany - planned and built according to your wishes. Competent and honest advice is the cornerstone of our successful business and the prerequisite for your untroubled travel experiences. Tom's WorldCruisers are not only visually appealing but also tested-and-proven under the most extreme conditions. They are reliable companions for any terrain and provide excellent living comfort. We are looking forward to make your off-road dreams come true.

Your Tom Ramming

What you can expect from Tom's WorldCruisers

1. ONE LIKE NO OTHER

Over six million Toyota Land Cruisers have been used around the globe so far. No surprise, as the Land Cruiser is an off-road legend for which there is hardly an obstacle that it cannot conquer. In our humble opinion, that's just the right basis for your very own WorldCruiser.

2. STRONGER AT WORK

With our drive and chassis solutions, we ensure that you get through anything to arrive safely at your destination. Some examples: differential locks, suspensions, rims, tyres, wheel spacers, shock absorbers, underbody protection and reinforced clutches.

3. FIT FOR HEAVY USE

Our best travelling companions for engine and fuel: exhaust systems, radiator, fuel filter, charge air system with cooler, snorkel (fording depth 150 cm), TRABOLD oil filter, turbo engine 1HDT, turbo retrofit kit, auxiliary tanks.

4. YOUR ROOF AROUND THE WORLD

Comfortable headroom and generous sleeping space: Tom's pop-up roofs are the icing on the cake for any Land Cruiser! The slight increase in height means that your vehicle remains container-compatible and retains its optimum driveability.

5. ADVENTURE EXTENSION

Are you looking for more space and freedom of movement even in bad weather? Enjoy all the advantages of the Land Cruiser without having to switch to a larger vehicle. Our rear extension with pop-up roof makes all this possible.

6. THE CHOICE IS YOURS

Interior finishing - individually customised or realised on the basis of proven concepts. Whether you pick the basic version with seating area, cooker, sink and cool box or the complete fitout with heating, hot water boiler, kitchenette, toilet, outdoor shower and much more, the choice is yours.

Tom's WorldCruiser

Our expedition vehicles:
your reliable companion on
all continents.

Tom's Special Vehicles

We realise customised special constructions with reinforced components, custom doors and interior fittings. We are happy to plan the perfect solution with you.

From new car
to
special vehicle

Tom's Vintage Cars

We restore Toyotas of all
years and types. Talk to us
about your requirements.

Tom's Jäger

We offer practice-oriented vehicle solutions for hunters on a Land Cruiser platform. Our vehicles are optimised for the recovery and safe transport of game, weapons, dogs and equipment.

Nothing is impossible - Toyota!

Ever heard this joke? Three desert explorers on the ferry from Tunis to Genoa are reminiscing about their journey. The first one talks about everything that broke down, the second one about the remote places where he got spare parts, and the one with the Toyota about all the places he has been to.

The legendary reliability of the Toyota Land Cruiser even into old age is just one of the reasons why the heavy-duty version is so popular as a long-distance and expedition vehicle.

As a long-time certified vehicle mechanic with experience from thousands of off-road kilometres in expeditions, long-distance journeys and several rally participations, we have the necessary expertise to advise you appropriately.

Whether you want to buy a new or a well run-in Toyota for your next trip, you have come to the right place. At Tom's Fahrzeugtechnik you get perfect craftsmanship paired with practical experience from well over 600 converted customer vehicles in use worldwide.

Our Toyota Land Cruiser:

We import new vehicles directly, not via third parties or middlemen. For this reason, vehicles are also available at short notice. In addition, all new vehicles are supplied ready for registration, including Euro 6 with particle filter.

It is the details that make up the big picture.

Due to our many excursions to different regions of the earth, we are in the special position to offer you practical, expedient and useful assistance in the development and implementation of a vehicle conversion. It is often the small details that make travelling with and in a vehicle much more convenient.

Everything you need for your big trip:
Travel spare parts kits, repair kits,
filters, electric winch and
much more ...

I pack my WorldCruiser and take with me ...

A broken fan belt in the Mongolian steppe? A flat tyre in Albania? Or simply stuck in the Namibian sand? Anyone who embarks on a journey can tell a lot of stories upon returning home. Making a small repair or getting unstuck in muddy terrain are part of everyday travel when you venture off the tarmac.

It is therefore absolutely necessary to be prepared and equipped accordingly. But what should you take with you and what can you leave at home? Whether it's a radio, rescue tape, spare parts, a tyre repair kit or anything else: We advise you on what you must have on board.

TIPS FOR THE CORRECT TYRE PRESSURE

Asphalt	100 %
Gravel	minus 10–15 %
Rocks	minus 10–15 %
Mud	minus 25 %
Sand	minus 50–60 %

We are there for you after the purchase of your WorldCruiser

Your very own WorldCruiser from Tom's Fahrzeugtechnik is in good hands, even after its completion and delivery. In our mechanic's workshop, we are happy to carry out all regular service work in and on the vehicle for you - including German TÜV approval, of course.

Even when you are on the road, we are there for you. For your international travels, we offer you technical support via our hotline.

In addition, our worldwide partner network, such as our cooperation with Auto Repairs Etzold in Windhoek, Namibia, enables us to provide service and assistance directly on site in many cases.

And for your travel-free times we rent out garage parking spaces for your WorldCruiser directly on our company premises.

Feeling adventurous?

Do you want to discover spectacular landscapes with your WorldCruiser while experiencing the thrills of off-road driving? But you don't have the time to organise the trip yourself? Then come along! Where other tours end, we just get started. Experience wonderful desert landscapes with sand dunes and salt lakes, imposing mountains with challenging passes and unbelievable views, steep cliffs and other scenic highlights. Immerse yourself into the local culture and learn more about the country and its people while travelling off the beaten track!

We have been successfully organising guided expeditions and adventure tours for beginners and advanced travellers for many years.

Travel planning, route selection, spare parts and workshop service during the trip, ferry bookings, all necessary permits in the host country - everything is reliably organised by us! Which only leaves the question: ready to join in on an adventure?
